Gentlemen:

Supplemental permit is hereby granted to Triem Industrial Building Operations to modify site operations (as detailed below) all in accordance with the request prepared by Leonard C. Triem, dated September 15, 1976, and received by the Agency on September 20, 1976.

This supplemental permit is further subject to the following special conditions:

1. Dumping of refuse may be affected from the top of the working area when it is necessary to repair (bring to final grade) randomly located depressions or swales caused by erosion and differential settlement. However, in order to prevent blowing litter, it will be necessary to employ portable fencing in any such instance.

2. The dumping area may be varied to a windward region of the landfill at those times when failure to do so will result in offensive odors relative to neighboring residents.

Except as modified in the above documents, the site shall be operated in accordance with the terms and conditions of Permit No. 1972-5, dated August 11, 1972.

Very truly yours,

*Thomas E. Cavanagh Jr.*
